TECHNICAL SKILL

- **Front-End:** Vue.js, Nuxt.js, React.js, TypeScript, JavaScript, TailwindCSS, HTML, CSS
- **Back-End:** C#, .NET Core, RESTful API development, SQL, Database Migration
- **Other Technologies:** Node.js, Express.js, MongoDB, Blazor, MudBlazor
- **Tools & Workflow:** Git, GitHub, Azure DevOps, API Integration, Responsive UI, Agile Development

EXPERIENCE

Code(Hard):

May 2024 – Present

Junior Full-Stack Developer

Develop and maintain full-stack web applications for internal and client business platforms, including workflow-based systems and digital service applications. Collaborate with team members to implement assigned modules and system improvements.

Key Contributions

- Implement database schema and migration to support application features and workflow processes
- Develop RESTful APIs and frontend UI components for production systems
- Build approval workflows and role-based access features for administrative operations
- Integrate external APIs and support data processing between system modules
- Maintain existing features, fix bugs, and support ongoing system improvements

Projects Delivered

- **Residential Management System:** Supported development of operational modules including voting workflow, visitor management, billing, and data import/export.
- **Social Community Platform:** Developed features related to group interaction, point tracking, ranking, and reward configuration.
- **Chatbot Management System:** Implemented UI and API integration for chatbot configuration and response management.
- **Influencer Networking Platform:** Built frontend and backend components for profile management and admin functionality.
- **Digital Asset Marketplace:** Contributed to product management, user role management, and administrative control features.
- **Employee Travel Expense System:** Developed modules supporting travel expense requests and approval workflow for internal operations.
- **Procurement Management System (Banking Domain):** Contributed to purchasing workflow implementation and administrative process support.
